

<b>Class 6 (Y5)</b>	Using suitable software the children will create shape poetry. Link to English.	The children will use a variety of programs to compose and edit their own music. They will combine voice, samples and recordings to create a composition. Link to Music.	Using Scratch, the children will create, edit and debug algorithms to produce a computer game. This half term they will create backgrounds and sprites that can interact.	Using Scratch, the children will continue create, edit and debug algorithms to produce a computer game. Games will be debugged and variables programmed to allow scoring of games.	Using a suitable program such as Microsoft excel, the children will create their own function machines. After testing the machines will be saved as maths resources to be used by the class. Link to maths.	The children will research African masks and will use this research to create their own digital designs for African masks. Link to African art.
