

FAMILIES

Family sticks together,
Mother and father,
Sister and brothers,
Grandma's and Grandpa's,
And many others.

Family comes together always and forever,
we need each other,
when we are both suffering,

Family is all we've got,
They come when we need help,
They are our closest friends,
They love you with all their heart.

one family is big,
while another is small,
some families have children,
some families have cousins.

When we are together,
or far apart,
The people I care for,
Fill the map of my heart.
